Research Interests

Prior	Physics-Informed Neural Networks | LLM Confidence Calibration
Current	Spatiotemporal Diffusion | Visual Reasoning of VLM
Pursuing	Physical AI

Education

Seoul National University Mar 2025 – Feb 2027
M.S. in Industrial Engineering
Advisor: Prof. Pilsung Kang · Data Science and Business Analytics (DSBA) Lab [homepage]

Seoul National University B.S. in Physics and Astronomy Mar 2020 – Feb 2025
Department of Physics and Astronomy

Hana Academy Seoul Mar 2017 – Feb 2020

Research Projects

Manufacturing AI Data Value Chain Construction Project Jul 2026 – Present
Korean Ministry of Trade, Industry and Energy (MOTIE) · National R&D Project

Contextual Bandit–Based Policy Optimization Framework for Insurance Restructuring Strategy Selection and Combination Apr 2026 – Present
Meritz Fire & Marine Insurance Co., Ltd.

Data Construction and Optimization for Training/Inference of an Information Retriever Mar 2025 – Mar 2026
Samsung Fire & Marine Insurance Co., Ltd.

Anomalous Situation Detection Based on Individual Daily Patterns Using Location Information Jul 2025 – Nov 2025
Electronics and Telecommunications Research Institute (ETRI)

Professional Experience

Lunosoft Inc. Project Manager — Feb 2024 – Nov 2024

- *Druid Rising: Idle RPG*
- *2026 Trash King: Idle Tycoon*
- *Love Revolution: Hidden Object*

AIARA Inc. — Dec 2022 – Feb 2024

- **Project Management Team Leader** — May 2023 – Feb 2024
- **Project Manager** — Dec 2022 – Feb 2024
  - Samsung Electronics — *Virtual 3D Homescreen & Memory Link*
  - E-MART — Reward-based web game *Emart Farm*
  - Megastudy Education — Kids' content *Elihigh Kids Character Room*
  - Megastudy Education — *Mystical AR Nature Observation*
  - Seoul National University Hospital — Long-term follow-up management app for childhood cancer survivors
- **App Developer** — May 2023 – Jan 2024
  - LUXROBO — IoT Smart Home on-premises app

Teaching & Mentoring

Boost Camp Mentor Service Design, SBA SeSAC — Dec 2023 – Mar 2024
